Customer Complaint Classification Task

https://gemini.google.com/app/7421a3aa903a570a

User prompt: Classify each customer complaint into exactly one of these categories: Delivery, Billing, Product Quality, or Customer Service. Use these examples as guidance: Complaint: "The courier left my parcel at the wrong building." Category: Delivery Complaint: "My discount code was accepted, but the full price was charged to my account." Category: Billing Complaint: "The electric kettle switches off before the water boils." Category: Product Quality Complaint: "The support agent was rude and refused to answer my questions." Category: Customer Service Now classify the following complaint using the same approach. Test Case ID: TC01 Complaint: My package arrived three days later than the promised delivery date. Return only the category name, with no explanation or extra text.

Response: Delivery

User prompt: Test Case ID: TC02 Complaint: I was charged twice for the same order.

Response: Billing

User prompt: Test Case ID: TC03 Complaint: My headphones arrived broken, and one side does not work.

Response: Product Quality

User prompt: Test Case ID: TC04 Complaint: I emailed customer support last week about my order, but nobody has replied.

Response: Customer Service

User prompt: Test Case ID: TC05 Complaint: My package arrived late, and the company charged me an extra delivery fee.

Response: Billing

User prompt: Test Case ID: TC06 Complaint: Great service! I absolutely loved being charged three times for one item.

Response: Billing

User prompt: Test Case ID: TC07 Complaint: The package arrived on time, but the phone inside has a cracked screen.

Response: Product Quality

User prompt: Test Case ID: TC08 Complaint: I still haven't received my order confirmation, and I don't know whether my payment went through.

Response: Billing
